§412.212 National rate.

(a) *General rule.* For purposes of payment to hospitals located in Puerto Rico, the national prospective payment rate for inpatient operating costs is determined as described in paragraphs (b) through (d) of this section.

(b) *Computing a national average standardized amount.* HCFA computes a discharge-weighted average of the—

(1) National urban adjusted standardized amount determined under §412.63(j)(1)(i); and

(2) National rural adjusted average standardized amount determined under §412.63(j)(2)(i).

(c) *Computing a national rate.* For each discharge classified within a DRG, the national rate equals the product of—

(1) The national average standardized amount computed under paragraph (b) of this section; and

(2) The weighting factor (determined under §412.60(b)) for that DRG.

(d) *Adjusting for different area wage levels.* HCFA adjusts the proportion (as estimated by HCFA from time to time) of the national rate computed under paragraph (c) of this section that is attributable to wages and labor-related costs for area differences in hospital wage levels by a factor (established by HCFA) reflecting the relative hospital wage level in the geographic area of the hospital compared to the national average hospital wage level.

§412.220 Special treatment of certain hospitals located in Puerto Rico.

Subpart G of this part sets forth rules for special treatment of certain facilities under the prospective payment system for inpatient operating costs. The following sections in subpart G of

42 CFR Ch. IV (10–1–99 Edition)

this part do not apply to hospitals located in Puerto Rico:

(a) Section 412.92, sole community hospitals.

(b) Section 412.96, referral centers.

CRITERIA AND CONDITIONS FOR REDESIGNATION

§412.230 Criteria for an individual hospital seeking redesignation to another rural area or an urban area.

(a) *General.* (1) *Purpose.* Except as provided in paragraph (a)(5) of this section, an individual hospital may be redesignated from a rural area to an urban area, from a rural area to another rural area, or from an urban area to another urban area for the purposes of using the other area's standardized amount for inpatient operating costs, wage index value, or both.

(2) *Proximity.* Except as provided in paragraph (a)(3) of this section, to be redesignated to another rural area or an urban area, a hospital must demonstrate a close proximity to the area to which it seeks redesignation by meeting the criteria in paragraph (b) of this section, and submitting data requested under paragraph (c) of this section.

(3) *Special rules for sole community hospitals and rural referral centers.* To be redesignated under the special rules in this paragraph, a hospital must be a sole community hospital or a rural referral center as of the date of the MGCRB's review.

(i) A hospital that is a rural referral center, a sole community hospital, or both does not have to demonstrate a close proximity to the area to which it seeks redesignation.

(ii) If a hospital that is a rural referral center, a sole community hospital, or both qualifies for urban redesignation, it is redesignated to the urban area that is closest to the hospital. If

the hospital is closer to another rural area than to any urban area, it may seek redesignation to either the closest rural or the closest urban area.

(iii) If a sole community hospital or rural referral center loses its special status as a result of redesignation, the hospital is considered to retain its special status for the purpose of applicability of the special rules in paragraph (a)(3) of this section.

(iv) A hospital that is redesignated under paragraph (a)(3) of this section may not be redesignated in the same fiscal year under paragraph (a)(2) of this section.

(4) *Application of criteria.* In applying the numeric criteria contained in §§412.230(b)(1) and (2), (d)(2), (e)(1)(iii), and (e)(1)(iv) (A) and (B), rounding of numbers to meet the mileage or qualifying percentage standard is not permitted.

(5) *Limitations on redesignation.* The following limitations apply to redesignation:

(i) An individual hospital may not be redesignated to another area for purposes of the wage index if the pre-reclassified average hourly wage for that area is lower than the pre-reclassified average hourly wage for the area in which the hospital is located.

(ii) For redesignations effective in fiscal years 1997 and 1998 and 2002 and thereafter, a hospital may not be redesignated for purposes of the standardized amount if the area to which the hospital seeks redesignation does not have a higher standardized amount than the standardized amount the hospital currently receives.

(iii) A hospital may not be redesignated to more than one area.

(b) *Proximity criteria.* A hospital demonstrates a close proximity with the area to which it seeks redesignation if one of the following conditions applies:

(1) The distance from the hospital to the area is no more than 15 miles for an urban hospital and no more than 35 miles for a rural hospital.

(2) At least 50 percent of the hospital's employees reside in the area.

(c) *Appropriate proximity data.* For redesignation to an area, the hospital must submit appropriate data relating to its proximity to that area.

(1) To demonstrate proximity to the area, the hospital must submit evidence of the shortest route over improved roads to the area and the distance of that route.

(2) For employee address data, the hospital must submit current payroll records that include information that establishes the home addresses by zip code of its employees.

(d) *Use of an area's standardized amount for inpatient operating costs.* (1) *Criteria.* To receive an area's standardized amount for inpatient operating costs, a hospital must demonstrate that its incurred costs are more comparable to the amount it would be paid if it were reclassified than the amount it would be paid under its current classification, and that it has the necessary geographic relationship (as specified in paragraphs (a) and (b) of this section) with the area to which it seeks redesignation.

(2) *Demonstrating comparable costs.* A hospital demonstrates that its costs are more comparable to the amount it would be paid if it were reclassified if the hospital's case mix adjusted cost per discharge is at least equal to its current rate plus 75 percent of the difference between that rate and the rate it would receive if it were reclassified.

(3) *Appropriate cost data.* For a standardized amount for inpatient operating costs change, the hospital must submit appropriate data as follows:

(i) For hospital-specific data, the hospital must provide data from its most recently settled and most recently filed cost report.

(ii) For data on other hospitals, the hospital must base its application on the most recent revisions to the prospective payment rates for inpatient operating costs, as published in the FEDERAL REGISTER.

(e) *Use of urban or other rural area's wage index—*(1) *Criteria for use of area's wage index.* Except as provided in paragraphs (e)(3) and (e)(4) of this section, to use an area's wage index, a hospital must demonstrate the following:

(i) The hospital's incurred wage costs are comparable to hospital wage costs in an urban or other rural area;

(ii) The hospital has the necessary geographic relationship as specified in paragraphs (a) and (b) of this section;

§ 412.232

42 CFR Ch. IV (10–1–99 Edition)

(iii) The hospital's average hourly wage is at least 108 percent of the average hourly wage of hospitals in the area in which the hospital is located; and

(iv) One of the following conditions apply:

(A) The hospital's average hourly wage is equal to at least 84 percent of the average hourly wage of hospitals in the area to which it seeks redesignation; or

(B) For redesignations effective before fiscal year 1999, the hospital's average hourly wage weighted for occupational categories is at least 90 percent of the average hourly wages of hospitals in the area to which it seeks redesignation.

(2) *Appropriate wage data.* For a wage index change, the hospital must submit appropriate data as follows:

(i) For hospital-specific data, the hospital must provide data from the HCFA hospital wage survey used to construct the wage index in effect for prospective payment purposes during the fiscal year prior to the fiscal year for which the hospital requests reclassification.

(ii) For data of other hospitals, the hospital must provide data concerning the following:

(A) The average hourly wage in the area in which the hospital is located and the average hourly wage in the area to which the hospital seeks reclassification. The wage data are taken from the HCFA hospital wage survey used to construct the wage index in effect for prospective payment purposes during the fiscal year prior to the fiscal year for which the hospital requests reclassification and;

(B) If the hospital is requesting reclassification under § 412.230(e)(1)(iv)(B), occupational-mix data to demonstrate the average occupational mix for each employment category in the area to which the hospital seeks reclassification. Occupational-mix data can be obtained from surveys conducted by the American Hospital Association.

(3) *Rural referral center exception.* If a hospital was ever a rural referral center, it does not have to demonstrate that it meets the criterion set forth in

paragraph (e)(1)(iii) of this section concerning its average hourly wage.

(4) *Special dominating hospital exception.* The requirements of paragraph (e)(1)(i) and (e)(1)(iii) of this section do not apply if a hospital meets the following criteria:

(i) Its average hourly wage is at least 108 percent of the average hourly wage of all other hospitals in the area in which the hospital is located.

(ii) It pays at least 40 percent of the adjusted uninflated wages in the MSA.

(iii) It was approved for redesignation under this paragraph (e) for each year from fiscal year 1992 through fiscal year 1997.

§ 412.232 Criteria for all hospitals in a rural county seeking urban redesignation.

(a) *Criteria.* For all hospitals in a rural county to be redesignated to an urban area, the following conditions must be met:

(1) The county in which the hospitals are located must be adjacent to the MSA or NECMA to which they seek redesignation.

(2) All hospitals in a rural county must apply for redesignation as a group.

(3) The hospitals must demonstrate that the rural county in which they are located currently meets the criteria for metropolitan character under paragraph (b) of this section and the wage criteria under paragraph (c) of this section.

(4) The hospitals may be redesignated only if one of the following conditions is met:

(i) The pre-reclassified average hourly wage for the area to which they seek redesignation is higher than the pre-reclassified average hourly wage for the area in which they are currently located.

(ii) The standardized amount for the area to which they seek redesignation is higher than the standardized amount for the area in which they are located.

(b) *Metropolitan character.* The group of hospitals must demonstrate that the
